The 9th Good Life Award

Minister of the Environment Award

KIMICA Corporation (HQ: Tokyo, CEO: Fumiyo Kasahara), a manufacturer of alginate, received the Minister of the Environment Award Grand Prize at the 9th [Good Life Award](#).

The award, hosted by Ministry of the Environment, is to honor environment-and-society-conscious life and activities to achieve SDGs. KIMICA received the award for its various activities through manufacturing and sales of alginate which contribute to good life.

*Please refer to [Website](#) and [Sustainability Report](#) for detailed activities.

This marked the fourth award regarding sustainability KIMICA received an award at following those received at the Japan SDGs Award (Host: Japanese Government) in 2020, at the Food Safety, Security and Environmental Contribution Award (Host: THE JAPAN FOOD JOURNAL Co., Ltd.) and at the Green Purchasing Award (Host: Green Purchasing Network) in 2021.

【KIMICA Corporation】

KIMICA Corporation is the only company in Japan that produces and provides alginate, an extract from natural seaweed. Alginate is a polysaccharide contained in seaweed and is widely used in food, pharmaceutical, cosmetic, textile, steel and paper industries. KIMICA has more than 90% alginate market share in Japan and the world's top production volume of high quality alginate for food and pharmaceutical industries.
