Our Strengths

Customer Base

KIMICA commands over 95% of the alginate market in Japan, granting us access to a prestigious network of over 1,500 customers. Our suppliers can leverage this significant market advantage to expand their reach within Japan.

Marketing Expertise

Drawing on over 80 years of KIMICA's expertise in thickeners, stabilizers, and food ingredients, KIMITEX comprises highly specialized professionals. Our experts deliver a wide range of solutions and insights, tailored to Japanese customer's unique needs.

Quality Assurance

KIMICA upholds a sophisticated quality assurance system renowned globally in the alginate industry. By integrating it, KIMITEX ensures the delivery of products that meet the stringent quality expectations of Japanese customers, thereby earning their trust.

Food Application Lab

Our Food Application Lab enhances the marketability of suppliers' products in Japan. Equipped to develop and verify tailored solutions, the lab works closely with our marketing team to align product innovations with market demands, thereby boosting sales.
